Summary

Dynamic and detail-oriented web developer with hands-on experience in creating responsive web pages, implementing interactive features, and enhancing user experiences. Proficient in JavaScript, React.js, and Node.js, with a strong foundation in data structures, algorithms, and REST API integration. Skilled at debugging, version control, and collaborating within cross-functional teams to deliver high-quality web solutions.

Education

Priyadarshini institute of technology and sciences, B.Tech in Computer Science July 2019 – Aug 2023

- **GPA** : 6.83/10.0
- **Coursework**: Programming, Datastructures , Algorithms, Databases , Operating Systems

Experience

Web Development intern , TechnoHacks edutech mar 2024 - april 2024

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimized user experience.
- Collaborated with a team to implement features like dynamic forms and interactive elements, leveraging modern frontend frameworks.
- Gained hands-on experience with REST APIs, debugging tools, and version control systems like Git.

Web Development Intern, UnifiedMentor may 2024 - july 2024

- Designed and implemented web components to enhance user interface and functionality, adhering to project specifications and timelines
- Assisted in troubleshooting and debugging issues in web applications, ensuring smooth performance and reliability.
- Contributed to project planning and code reviews, improving code quality and adhering to best practices in web development.

Projects

Feature-Rich Task Management App [Link](#)

- Developed a task management app with features like task creation, editing, assignment, and due date tracking.
- Implemented functionality for categorizing tasks by priority, status, and due dates, with visual indicators for overdue and completed tasks.
- Integrated secure user authentication with JWT and encrypted password storage, along with a dedicated analytics section for progress insights.

Interactive Web Story Platform [Link](#)

- Developed a web story platform offering features like viewing, liking, saving, and sharing stories.
- Users can browse stories by categories, add and edit stories with multimedia content, and download them.
- Integrated authentication for personalized experiences, including bookmarking stories and managing user content.

Technologies

Languages: java, JavaScript
